

Elevated to ridge living

RURAL acreage and sweeping valley views characterise Spring Mountain estate's latest Sky Ridge release.

Surrounded by parkland with town water and underground power, the latest precinct boasts elevated lots set across the ridge line.

Knight Frank land sales marketing manager Michael Rozic said lots were sized between 4000 and 9000 sq m with 70 per cent of those covering 8000 sq m.

Mr Rozic said many of these were elevated on some of the highest land in the estate.

He said the lots, priced between \$165,000 and \$250,000, had received increased interest thanks to a high demand for quality acreage.

"Around 12 lots were sold prior to Sky Ridge's public release,"

The estate is specifically designed to keep as much of the land in its natural state as possible.

Set in the Beaudesert Shire, many of the lots back on to parkland with wildlife corridors and natural waterways.

"The other point of difference is all the lots are fully-fenced, have driveways to the entry and are fully landscaped to the front," Mr Rozic said.

Spring Mountain's sales office is open daily from 10am-4pm, on Spring Mountain Drive, Greenbank.
